

# The Potters Vacation

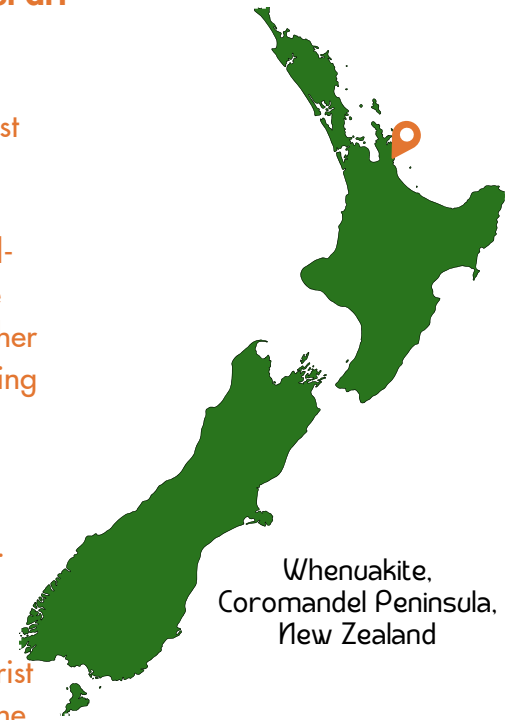

**The Potters Vacation offers visitors a taste of the laid back Coromandel art lifestyle, combining pottery with that famous Kiwi hospitality!**

Book a unique art inspired vacation at Alan Rhodes Pottery studio nestled amongst lush native bush, on the beautiful Coromandel Peninsula of New Zealand.

Your Potters Vacation hosts are Alan and Julia Rhodes, full time craft potters, well-connected and well-respected on the Coromandel Peninsula. Alan and Julia have been potting full-time for 50 years, and were taught by local working potters, rather than school-based training. Together they run a successful pottery business, creating and selling pots at their onsite workshop and shop.

Specialising in unique handmade domestic ware, they dig and process their own clay located on their property and use an LPG kiln for firing stoneware to 1300C. They make functional glazed ware and pit-fired pots.

The Coromandel Peninsula is renowned for its beautiful scenery and its many tourist attractions. Alan Rhodes Pottery is located in Whenuakite on the eastern side of the peninsula, close to popular Coromandel beaches and bush walks, and 25km away from the seaside town of Whitianga.
